Summary

Aspiring Software Engineer with experience building full-stack web applications and product-focused solutions using MERN Stack and modern web technologies. Skilled in REST APIs, databases, and end-to-end software development.

Education

B.Tech-Computer Science and Engineering

Aditya College of Engineering and Technology

CGPA:8.12

2023 – 2027

Surampalem

Technical Skills

Languages

Java, JavaScript, Python, SQL, C++

Core CS

Data Structures & Algorithms, OOP, DBMS

Tools

Git, GitHub, Postman, VS Code

Frontend

HTML, CSS, JavaScript, React.js

Backend

Node.js, Express.js, REST APIs

Database

MySQL, MongoDB

Work Experience

Full Stack Developer Intern

May 2025 – June 2025

APSCHE SmartInternz

- Developed a MERN-based food ordering platform with end-to-end functionality
- Worked on frontend-backend integration and implemented REST APIs
- Gained hands-on experience in full-stack development workflows

Projects

FutureMe – AI-Powered Goal Guidance Platform | Node.js, Express.js, Gemini API, JavaScript

- Developed a platform that simulates conversations with a personalized future-self persona to provide personalized guidance based on goals, challenges, and current activities.
- Integrated Google Gemini API with multiple guidance personas (Mentor, Real Truth, Harsh, Polite) to deliver context-aware recommendations.

FlawRES –Resume Builder with Live Preview| HTML,CSS,JavaScript

- Developed a FlowCV-inspired resume builder enabling users to create and refine resumes with real-time editing and live preview.
- Implemented resume enhancement through profile-content matching and structured recommendations.
- Built PDF export, multiple templates, theme customization, and Local Storage-based persistence without requiring user authentication

Vehicle Fleet Management System | React.js, Node.js, Express.js, MySQL, Sequelize

- Built a full-stack fleet management platform supporting vehicle allocation,route management, staff assignments, maintenance tracking, and operational status monitoring.
- Designed REST APIs and relational database models with advanced search and filtering for efficient fleet operations.

AI Claims Processing Pipeline | HackerRank Orchestrate

- Developed an AI-assisted claims processing workflow that analyzed claim data and vehicle images, normalized damage classifications, and generated structured CSV outputs for automated downstream processing.

Coding Profile

- CodeChef: 240+ Problems | LeetCode: 40+ Problems | HackerRank: 4-Star C++, 3-Star Problem Solving, 3-Star Python

Achievements & Certificates

- Salesforce Trailhead Agentblazer Championship 2026
- Microsoft AI Skills Fest 2026
- HackerRank SQL (Basic)
- HackerRank Java (Basic)

Languages

Telugu, Hindi, English
